RE: Site Inspection, American Cometco, Inc., Etna Mine, S/021/009, Iron County, Utah

Date of Inspection: March 22, 2004
Time of Inspection: 10:30 a.m.
Conditions: Sunny, humid
Participants: Doug Jensen, DOGM

Purpose of Inspection:

I was in the area inspecting another site and stopped by the mine to check to see if the warning signs, which were placed during the summer of 2002, were still in place.

Getting to the site:

See my inspection memo dated July 16, 2002 for directions.

Observations:

All warning signs were still in place and the site appeared clean and stable. There were no environmental concerns noted when I checked the site. No pictures were taken while I was on site.

Conclusions and Recommendations:

will continue to monitor the site when I am in the area.
